

**Guest Lecture in Natural Resource Policy**

**April 12, 2017 7:20 pm**

**David King Hall, Room 3006**

**Policy Challenges for Wildlife Management in a Changing Climate**

**Dr. Mark L. Shaffer**

Dr. Mark Shaffer served most recently as Climate Change Policy Advisor at the US Fish and Wildlife Service. He is a biodiversity conservationist with extensive experience in population viability analysis, conservation biology, resource economics, and environmental philanthropy. As Program Director for the Environment at the Doris Duke Charitable Foundation, he provided strategic direction for the investment of nearly \$100 million in conservation investments. As Senior Vice President of Programs for Defenders of Wildlife, Shaffer provided direction, oversight, and administration of the organization's species, habitat, and legal work. Prior to his work with Defenders of Wildlife, he worked with three other major conservation organizations: The Nature Conservancy, The Wilderness Society, and the U.S. Fish and Wildlife Service. Shaffer received a Bachelor of Science degree from Indiana University of Pennsylvania, and his Ph.D. from Duke University School of Forestry and Environmental Studies. His doctoral research on grizzly bears helped to pioneer population viability analysis in conservation biology.
